

The **IntelliDOCK 9555** is the ideal low cost accessory for using the Iridium 9555 handset for various maritime, transport or fixed site applications.

The purpose built cradle simply docks the 9555 handset securely, providing an integrated antenna, data and power connection that makes it possible to keep all antenna cables and power permanently connected to the dock ready for use. The 9555 handset is easily inserted and removed by the press of a button on the top of the dock making it very easy to remove the 9555 for use out of the dock at anytime.

IntelliDOCK 9555 also supports the use of an optional compact Beam Privacy Handset (RST755) that can be located next to the **IntelliDOCK 9555** for added convenience if required.

KEY FEATURES / BENEFITS
